Subject: Daily updates/exchange of contact information

Afternoon,

Dodie we discussed earlier today Gary would like to receive daily updates on the progression of the cleanup at the facility. He would really like to be informed of what's going on outside of the facility, as well as the cleanup inside. I was not allowed to go inside, as you know, so what we discuss during the morning meetings is really all I have been able to relay to him. If you could start doing this, it would be greatly appreciated as I will then, more than likely, only make a few short visits next week versus daily ones.

I would also like to be cc'd on these emails/updates please.

Gary, Dodie has been beyond helpful!

Dodie Gober's cell number is 281.300.0235.

Gary Moore's cell number is 214.789.1627.

Thank you both very much,

Brittany L. Boyke
